

ALEX MORGAN

Chicago, IL | +1 (555) 019-2834 | alex.morgan@email.com | linkedin.com/in/alex-morgan-data

Professional Summary

Results-driven Data Analyst with 4+ years of experience optimizing data pipelines, building production-grade BI dashboards, and delivering actionable analytics that drive strategic growth. Proven track record of translating complex datasets into business strategies, resulting in a 40% reduction in executive reporting cycles and \$85K in annualized infrastructure cost savings.

Technical Skills Matrix

Category	Core Technologies & Tools Proficiency
Languages	Python (Pandas, NumPy, Scikit-Learn), SQL (PostgreSQL, T-SQL), R
BI & Visualization	Tableau Desktop/Server, Power BI, Looker, Matplotlib, Seaborn
Data Infrastructure	Snowflake, AWS (S3, Redshift), Apache Airflow, dbt (Data Build Tool)
Methodologies	A/B Testing, Predictive Modeling, ETL/ELT Pipeline Automation, Agile Scrum

Professional Experience

Senior Data Analyst | TechCorp Solutions2024 - Present

- Architected and deployed automated ETL pipelines using **Python** and **dbt** to migrate legacy warehousing infrastructure to **Snowflake**, reducing overall query compute times by 35%.
- Engineered enterprise-wide **Tableau** dashboards tracking critical KPI architectures across marketing and sales departments, eliminating 15+ hours of weekly manual reporting tasks.
- Championed multi-variable **A/B testing** paradigms for product checkout workflows, unlocking a 4.2% lift in standard conversion flow rates.

Data Analyst | Insight Retail Group2022 - 2024

- Monitored and cleaned massive structured transaction data grids using **SQL**, isolating anomalies that saved the company \$85K in annualized spend anomalies.
- Implemented machine learning cluster algorithms in **Python** to segment customers, supporting targeted email campaigns that increased open rates by 18%.

Key Data Engineering & Analytics Projects

Project Context	Technologies Used	Business Impact & Quantifiable Metric Output
Churn Prediction System	Python, Scikit-Learn, Snowflake	Identified 88% of high-risk subscription accounts early, allowing retention teams to mitigate churn structures by 14%.
Cloud BI Dashboard Sync	AWS Redshift, Tableau, Airflow	Unified 4 separate regional reporting segments into a single source of truth, optimizing cross-department alignment.

Education

M.S. in Data Science | DePaul UniversityGraduated 2022
