

ALEX MORGAN, PMP

Senior Technical Delivery Manager | Agile & Scrum Practitioner

Email: alex.morgan.pmp@email.com | Phone: +1 (555) 019-2834 | LinkedIn: linkedin.com/in/alexmorgan-pmp

PROFESSIONAL SUMMARY

Result-driven, PMP-certified Technical Manager with over a decade of experience leading cross-functional engineering teams and delivering complex software solutions. Expert in bridging the gap between business strategy and technical execution using Agile, Scrum, and Kanban methodologies. Proven track record of optimizing delivery pipelines, managing multi-million dollar budgets, and mitigating operational risks across diverse industry sectors including Finance, E-commerce, and Healthcare. Focused entirely on process excellence, resource management, stakeholder alignment, and high-velocity team leadership without hands-on coding execution.

CERTIFICATIONS & MANAGEMENT COMPETENCIES

Certifications: Project Management Professional (PMP)®, Certified ScrumMaster (CSM)®, PMI Agile Certified Practitioner (PMI-ACP)®, SAFe® Product Owner/Product Manager (POPM)

Core Competencies: SDLC Management, Agile/Scrum Transformation, Cross-Functional Team Leadership, Risk Mitigation & Contingency Planning, Vendor & Stakeholder Management, Budgeting & Resource Allocation, Scope Management, Continuous Process Improvement

PROFESSIONAL EXPERIENCE

Senior Technical Delivery Manager

Jan 2023 – Present

Global Financial Solutions Inc.

New York, NY

- Directed 4 concurrent global engineering squads containing 35+ total team members, successfully accelerating software release cycles by 28% through Lean and Agile framework optimization.
- Formulated comprehensive project charters, risk registers, and resource allocation matrices under PMP standards for enterprise cloud migration initiatives budgeted at \$4.5M.
- Facilitated all core Agile ceremonies including daily stand-ups, sprint planning, backlog refinement, and retrospectives to remove delivery blockers and maintain velocity.
- Served as the primary strategic liaison between executive steering committees, product management, and engineering resources to align delivery roadmaps with corporate KPIs.

Technical Project Manager

Mar 2020 – Dec 2022

Apex E-Commerce Corp.

Austin, TX

- Championed the structural transition from a rigid legacy waterfall pipeline to a highly responsive Scaled Agile Framework (SAFe), improving time-to-market metrics for core web applications by 35%.
- Managed full end-to-end Project Management Life Cycle (PMLC) constraints, including rigorous critical path analysis, milestone tracking, and scope boundary verification.
- Orchestrated complex third-party vendor integrations and governed Service Level Agreements (SLAs), consistently minimizing project operational dependencies and contract risks.

- Implemented automated performance metric dashboards to track sprint burn-down, team velocity, and cumulative flow, enhancing resource predictability by 20%.

Technical Delivery Lead

Aug 2016 – Feb 2020

MedTech Innovations Ltd.

Boston, MA

- Coordinated cross-functional system engineering and product testing teams to successfully launch a compliance-driven healthcare records analytics platform on schedule.
- Established robust internal communication frameworks and transparency initiatives that resolved cross-team project dependencies and drastically reduced engineering rework by 15%.
- Managed comprehensive sprint Backlog Grooming sessions and mapped out complex product requirements into highly structured epics and user stories.

EDUCATION

Bachelor of Science in Computer Science & Information Systems

Graduated May 2014

State University of Technology

Austin, TX
